

## <Bill Moore>

My Top 5 Strengths
Adaptability (Go with the flow - now)
Intellection ( I need time alone to think )
Input ( Any and all knowledge is always good )
Connectedness
Empathy ( I trust my feelings and intuition – let's think creatively and see possibilities)

I am most motivated by:
Fun
Challenge
Change
Getting things done that matter – being part of the solution

3 things I LOVE to do	3 things I would rather NOT do
Build and work with great teams	I am not a process person – please do not ask me to design, document or enforce minutely detailed or inflexible step by step processes
Research and learn – focus on innovation and new technology - share the results	Numbers - I am happy with the big picture but I will never be the finance guy so detailed financial analysis and planning is not my thing
Teach, Coach, Mentor – Ask me to organize or present conferences, classes or workshops	Go along to get along. I need to believe in what I am doing and do what is right

What is the best way to communicate with me on a project?

Lets talk: Call me – or if it is a quick question then use text or instant messaging

Professional Performance (three statements about what you bring to the table – feedback from peers/clients, etc.)

“Bill is is a great first line manager, he cares deeply about his trainees - both their business success and their personal happiness.”

Energy and positive enthusiasm “He is always positive and helps to build a friendly atmosphere.”

I play well with teams and enjoy diversity

Professional Vision (what is your perfect world?) and Mission (how will you get there?)

Be the Extreme Happiness Officer

Work on stuff that matters with people I enjoy
